August 29, 2008

Dear Atu:

Please feel free to use this letter as a reference for any work that you may pursue in the future. The low side wall that you constructed on our property this month was done very well. The estimates were accurate, the work completed within the time frame you specified, and everything was done with a minimum amount of disruption. Your work crew members were well supervised, pleasant to deal with, and cleaned up neatly after each day's work.

We appreciated the attention to detail and the little extras done as my wife thought about some other things she wanted. We will certainly think of you and your crew first if we ever decide on additional construction of this type on our property.

Mahalo and Aloha.

A handwritten signature in cursive script that reads "Frank Genadio". The signature is written in black ink and has a long, sweeping horizontal line extending to the right.
